

# ABDULJALAL LAWAL

COMPUTER ENGINEERING

## PROFIL

I am a highly motivated individual with excellent analytical skills and a natural talent for problem-solving. I have gained invaluable experience in managing and working collaboratively with teams as a startup team leader. I am also an active member of the Teknofest UAV team, where I am responsible for image processing, and I also worked as a research assistant on the Ömu Bap project. My experience as a member of the board of directors of UniMMG Samsun and the Academic Thought Education Civilization Society has further enhanced my organizational skills. I am passionate about specializing in the fields of Frontend Programming, Big Data, Artificial Intelligence, and Image Processing, and contributing to the development and growth of these fields. I am confident that my skills, experience, and drive make me a strong candidate for any position in these areas.
